

Starfish

A man walked along a beach full of starfish, picked them up one by one and threw them back into the ocean. When someone pointed out that the beach was miles long, full of starfish, and the man could not possibly make a difference, he picked up one more starfish and replied,

“I can make a difference to this one”.

That is a beautiful story and a reminder that although we can never make a difference to everyone; each of us can make a difference to someone. Over the years, the Victor Zando Foundation has made a difference in the lives of many students. We are only able to accomplish this through the loyalty and generosity of our donors—people who share our passion and believe in our mission.
